

Specification of subjects in doctoral studies

Subject code: ДМ2.5121А
Study program: Technologies, management and design of furniture and wood products – Module 2.5. Primary wood processing
Type and level of studies: Doctoral studies
Subject name: Veneers and layered boards
Teacher (s): Vladislav Zdravković, DSc
Associates:
Subject type: elective
ECTS: 8
Condition:
Subject aim: Introduction to the theoretical basis of veneer sawing, furling of veneers, the role of the pressing beam, parameters of veneer quality, veneer drying, gluing of layered veneer products, pressing regimes. Introduction to the modern methods of quality control of veneer and layered veneer-based products.
Subject outcomes: Mastering the engineering methods of managing the technological processes of veneer production and layered veneer-based products. Mastering modern methods of quality control of veneer and layered veneer-based products.
