

### Specification of subjects in master's degree studies

<b>Subject code:</b> TMPIIM3B1
<b>Study program:</b> Technologies, management and design of furniture and wood products
<b>Type and level of studies:</b> Master's degree study program
<b>Subject name:</b> Modification of wood with chemical methods
<b>Teacher (s):</b> Milanka R. Điporović-Momčilović, DSc; Jasmina Popović, DSc
<b>Associates:</b>
<b>Subject type:</b> elective
<b>ECTS:</b> 8
<b>Condition:</b> general conditions
<b>Subject aim:</b> Introducing students to the technological procedures of chemical modification of wood and learning about the effect of certain chemical treatments on the properties of wood and wood-polymer composites.
<b>Subject outcomes:</b> Students learn about the application of chemical methods of modification of wood and wood-polymer composites in order to improve the target properties of wood.
