

**Specification of subjects in Master's degree studies studies**

<b>Subject code:</b> MIII2104
<b>Study program:</b> Forestry
<b>Type and level of studies:</b> Master's degree studies
<b>Subject name:</b> Hunting grounds management planning
<b>Teacher (s):</b> Dragan Gačić, DSc
<b>Subject type:</b> compulsory
<b>ECTS:</b> 7
<b>Condition:</b> Completed undergraduate studies.
<b>Subject aim:</b> The aim of the course is to introduce students to the need and importance of complex management planning for hunting grounds and certain special-purpose units within forest areas (breeding centers - game farms).
<b>Subject outcomes:</b> By studying this course, students are trained to successfully develop and implement hunting management plans (hunting plan, hunting and intensive game development programs, and annual hunting management plans).
