

**Specification of subjects in Master's degree studies studies**

<b>Subject code:</b> MIII61105/r
<b>Study program:</b> Forestry
<b>Type and level of studies:</b> Master's degree studies
<b>Subject name:</b> Nature protection and protected natural areas in Serbia
<b>Teacher (s):</b> Milan Knežević, DSc; Olivera Košanin, DSc;
<b>Subject type:</b> elective
<b>ECTS:</b> 6
<b>Condition:</b>
<b>Subject aim:</b> Introducing students to the notion and spatial categories of protected natural assets, and also learning about the legislation used for the defining and management of protected natural areas in Serbia.
<b>Subject outcomes:</b> Students will be introduced to the so far proclaimed protected natural areas as well as the legislation that defines the differentiation, management and financing of protected natural areas in the territory of Serbia. The acquired knowledge would contribute to raising of the awareness about the role, importance and need of protected natural areas defining, as well as better management of these assets.
