Specification of subjects in undergraduate studies

Subject code: ТМП36А2
Study program: Technologies, management and design of furniture and wood products
Type and level of studies: undergraduate studies
Subject name: Technologies of wooden accessories production
Teacher (s): Igor S. Džinčić, DSc; Tanja B. Palija, PhD
Subject type: elective, term 7
ECTS: 6
Condition: No condition.
Subject aim: Training students to be able to independently run technological processes of mechanical processing in the production of construction joinery and wood products at conventional and NU technological equipment, and based on the acquired knowledge, make decisions on the purchase of new and reparation of the installed equipment for woodworking by sawing and plastic deformation in final mechanical processing. Students are trained to perform these activities both in industrial plants and in small craft workshops.
Subject outcomes: Fully achieved aim of the subject.
