

Specification of subjects in doctoral studies

Subject code: ДМ4.0111Г
Study program: Ecological engineering for soil and water resources protection
Type and level of studies: Doctoral studies
Subject name: Soil pollution, quality and protection
Teacher (s): Snežana Belanović-Simić,DSc; Milan Knežević,DSc; Dragan Čakmak,DSc; Jelena Beloica, PhD
Subject type: elective
ECTS: 8
Condition:
Subject aim: Acquisition of deeper knowledge of different aspects of pollution and soil quality (system of soil analysis, risk assessment, soil processes).
Subject outcomes: Application of acquired theoretical knowledge to solve specific practical problems; application of knowledge in experimental work for defining research tasks in the field of pollution and soil quality.
